

Whiz BrainOS Release Note (version 1.33)

RELEASE DATE - February 5th 2025

Release Notes

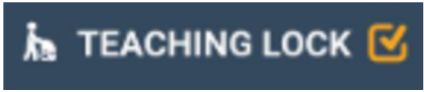

- **Teaching Lock Function**
 - Prevents accidental operations that could delete created cleaning routes.
 - Added in response to incidents where a route was unintentionally created or deleted at the start of cleaning.
- **Camera OFF/ON Setting**
 - Now available in V1 1.33.
 - Existing camera ON/OFF settings are preserved when you update to V1 1.33.

How to Update

1. Press the main power switch (I/O) to turn the machine on (I).
2. When the machine is connected to the Robot Operations Center (ROC), the download will start automatically. Please wait for the download to complete before turning the power OFF.

***The update will take approximately one hour (this may take several hours depending on the connection).**
***The machine can be used during the update.**
3. Turn the power OFF, then restart.
4. Check whether the software version has been updated to **"1.33"** by tapping the **"About"** tab on the **"Settings"** menu.

How to Use Teaching Lock

1. Choose Settings.
2. Check or Uncheck 'Teaching Lock' The image shows a dark blue rectangular button with a white icon of a person with a checkmark and the text 'TEACHING LOCK' followed by a yellow checkmark icon.
3. Enter PIN Code
4. Go BACK to main screen
